

Prison Production Garden Application - may1713

Client: Julie Stevens

Advisor: Doug Jacobson

Juan Venegas - Leader,

Matt Koenig - Communication Leader,

Andrew Dailey - Webmaster,

ChiaJun Tai - Key Concept Holder

Jacob Stimes - Webmaster,

Jacob Anhorn - Key Concept Holder

o Weekly Summary

This week the team met up and discussed what was left to do on the project and settled meeting times with Julie. We also split up into smaller groups so we can divide the work. A Trello board has been created so that we can monitor our progress as well as add new tasks and ideas. Hopefully, we'll be able to use the board as a way to showcase our progress to Doug and Julie (and her team).

o Past Week Accomplishments

❖ N/A

o **Individual contributions**

<u>NAME</u>	<u>Individual Contributions</u>	<u>Hours this week</u>	<u>HOURS cumulative</u>
Andrew Dailey	Met with the team to discuss this semester's schedule. Setup a Trello for task management and setup meetings with Doug and Julie. Discussed possible team roles for implementation.	1.5	1.5
Juan Venegas	Set up meetings with Doug and currently finding a solution to getting our android tablets. Created a trello board to organize the team's work and tasks	1.5	1.5
Matt Koenig	Setup meetings with advisors. Held a team meeting to plan ahead into next week. Will meet soon to discuss database layout.	1	1
ChiaJun Tai	Weekly meeting with the team. Discussed about the agenda for the next meeting.	1.5	1.5
Jacob Stimes	Looked into Django, our web framework, and specifically at features we can use in our project	1	1
Jacob Anhorn	Reviewed trello board and discussed meeting questions with Juan	0.5	0.5

o **Comments and extended discussion**

❖ N/A

o **Plan for Coming Week**

- ❖ Complete ordering of Android tablet for testing
- ❖ Design proper schema for the backend lesson-plan database
- ❖ Meet with Doug to discuss our design plans and ideas
- ❖ Meet with Julie and her team to check in, likely discuss visiting the prison

o **Summary of Advisor Meetings**
